

Tiger Helicopter

PUREair System

The Ultimate in Engine Protection

The Tiger attack helicopter is currently used by several European defense forces as well as the Australian Army. It has been deployed in desert operations and in 2009 the French Army Tiger helicopter received its operational certificate for use in Afghanistan.

The *PUREair* system is the perfect solution for such challenging operations.

It provides the highest level of engine protection which results in:

- Reduced maintenance & operational costs
- Increased operational availability & reduced downtime
- Increased engine reliability
- Safer operation (protection against FOD, ice, snow and sand)
- Protection against engine erosion

PUREair system for the Tiger helicopter

Product Details

Pall P/N: QB0677 (Left), QB0678 (Right)

Scavenge System: Fan

Certified for inadvertent entry into icing conditions.

No bypass door required.

Approval: Eurocopter approved

PUREair Vortex Tube

Principle of operation

The *PUREair* system benefits:

Self Cleaning System

No barrier filters to clean /replace

Constant Removal Efficiency

Non-bypass system. No degradation in filtration performance

No Filter Blockage

PUREair pressure drop does not increase with use - no risk of in-flight filter blockage

Increased Engine MTBUR

Improved protection from engine erosion

Increased Flight Safety

Excellent protection against FOD (Foreign Object Damage)

All Weather Protection

Excellent protection in Ice, Snow, Heavy Rain, and Salt Spray Conditions. Certified for flight in "known icing conditions"

Pall *PUREair* systems have been protecting helicopter engines since the 1960's. More than fifty different designs have been certified and operate worldwide. They are used on a variety of rotorcraft including AgustaWestland, Bell, Boeing, Denel, Enstrom, Airbus Helicopters, Kaman, MIL and Sikorsky.
